## Beck/Arnley Expands OE Replacement Filter Coverage

**SMYRNA, Tenn., March 23, 2010** – Beck/Arnley recently added 46 difficult-to-find filtration products to its line of premium quality, genuine foreign nameplate products. Beck/Arnley is continuously expanding its product offering and catalog to provide aftermarket automotive parts needed by today's service dealers and technicians.

The 46 new filters include:

- Air Filters 16
- Oil Filters 13
- Cabin Air Filters 9
- Fuel Filters 7
- Transmission Filters & Kits 1

“Beck/Arnley filters, manufactured with top grade materials, provide a perfect fit every time,” said Bob Anderson, vice president product management, Beck/Arnley. “We are a market leader in coverage, offering import applications serviced by today's technicians, including late models from 1995 to 2010.”

### Air Filters:

- Air filters with the same fit and finish as OE to fit properly in the air cleaner housing
- Match OE specifications
- Filtration material traps debris to prevent engine damage
- Flow rates that maintain optimal gas mileage and performance

### Oil Filters:

- Leading coverage includes canister and cartridge
- OE match and exact size on all
- Steel bodies for precise fit, corrosion proofing and strength
- Pressure relief bypass valves to maintain critical flow of oil, even in the worst conditions (where applicable)
- Silicone anti-drain back valves to prevent dry stats that shorten engine life (where applicable)

### Cabin Air Filters:

- Charcoal activated filter media where specified by OE manufacturers
- Same fit and finish as the OE so they fit properly in the cabin air filter housing
- Improves air quality inside the vehicle when replaced every 15,000 miles
- Filters out microscopic particles of dust, smoke, pollen, etc. that can cause discomfort, allergies and unpleasant odors

#### Fuel Filters:

- Complete with necessary or hard-to-find sealing rings
- OE design so filter fits perfectly – no need to adjust brackets
- Protects the precise operation of today's fuel delivery system
- Quality OE replacement to help optimize gas mileage and avoid costly repairs

#### Transmission Filters & Kits:

- Promotes longer transmission life by filtering out contaminants that cause wear
- Protects against costly repairs or replacement
- Rubber transmission pan gaskets that lay flat and hold bolts in place during reassembly for ease of service.

Like all Beck/Arnley Genuine Foreign Nameplate Parts, these new additions to the product line reflect a unique process of Application Specific Sourcing. Beck/Arnley's product management team researches a specific make/model application, evaluates the data, determines the exact part specifications and finds the best in class parts from its global supplier base of manufacturers of OE and OE quality parts.

"At Beck/Arnley, we are committed to making life easier for professional import technicians by offering OE quality parts that fit properly, broad vehicle and parts coverage, and product enhancements and solutions to make the installation job more efficient," concluded Anderson.

The new part numbers can be downloaded in either a PDF or Excel format by visiting Beck/Arnley's Web site at [www.beckarnley.com](http://www.beckarnley.com). The new numbers are also available on Beck/Arnley's Web catalog at [www.beckcatalog.com](http://www.beckcatalog.com). Product questions can be sent to [beckproduct@beckarnley.com](mailto:beckproduct@beckarnley.com).

#### **About Beck/Arnley:**

Beck/Arnley is exclusively dedicated to supporting its distribution partners who service the foreign nameplate repair and maintenance market. Beck/Arnley supplies wholesale distributors, who sell to jobbers, and retailers. Founded in 1914, Beck/Arnley's broad product offering for the aftermarket is organized into six modules: Brake & Chassis, Electrical, Clutch & Driveline, Engine Management, Engine Parts & Filtration, and Cooling Systems. Headquartered near Nashville, Tenn., Beck/Arnley researches, sources and delivers parts to resellers through its Master Distribution Center in Smyrna, Tenn. and strategically located satellite distribution centers across North America. Additional information is available at [www.beckarnley.com](http://www.beckarnley.com).
