Beck/Arnley Adds Nearly 1,500 Foreign Nameplate Part Numbers

SMYRNA, Tenn., Dec. 1, 2008 – Beck/Arnley recently added 447 new part numbers to its line of premium foreign nameplate products in October; this is in addition to the 1,051 numbers announced in January, April and August, for a total of 1,498 new part numbers this year. Beck/Arnley is expanding their catalog to provide aftermarket automotive parts needed by today’s service dealers.

The latest 447 part numbers fall within the following Beck/Arnley product modules:

- Brake & Chassis 207
- Clutch & Driveline 19
- Cooling 13
- Electrical 8
- Engine Management 52
- Engine Parts & Filtration 147
- Lubricant 1

Like all Beck/Arnley genuine foreign nameplate parts, these new additions to the product line reflect the process of Application Specific Sourcing. Beck/Arnley researches a specific make/model application, takes that data, and finds the best in class parts from their global supplier base of manufacturers of OE and OE quality parts. The result is more than 22,000 parts for 700 applications.

“The new part numbers are a result of Beck/Arnley’s strong dedication and ongoing commitment to offering our customers new product coverage to fit their foreign nameplate product needs on a continual basis,” said Dwight O. Brock, director of product data management for Beck/Arnley.

The new numbers can be downloaded in either a PDF or Excel format by visiting Beck/Arnley’s Web site at www.beckarnley.com. The new numbers are also available on Beck/Arnley’s Web catalog at www.beckcatalog.com.

About Beck/Arnley:

Beck/Arnley is exclusively dedicated to supporting its distribution partners who service the foreign nameplate repair market. Founded in 1914, Beck/Arnley’s broad product offering is organized into six modules: Brake & Chassis, Electrical, Clutch & Driveline, Engine Management, Engine Parts & Filtration, and Cooling Systems. Headquartered near Nashville, Tennessee, Beck/Arnley sources and delivers parts to resellers through its Master Distribution Center in Smyrna, Tennessee and strategically located satellite customer care centers across North America. Additional information is available at www.beckarnley.com.
