

PREMIUM AUTOMATIC TRANSMISSION FLUID DATA SHEET

Check with Beck

TYPE DW-1

252-2007

Beck/Arnley Premium Automatic Transmission Fluid for Type DW-1 is a superior quality formulation of high-performance base oils and carefully selected additives. It includes a unique mix of friction materials for the specific pressure settings present in Acura and Honda automatic transmissions which helps promote optimum shift quality.

This product is chemically balanced to provide protection for seals and o-rings against corrosion, and metal components from rust and wear as well as resistance to oxidation to prolong the life of the fluid. A special high viscosity index fluid helps to promote smooth shifting in extreme temperatures.

Use this Premium Automatic Transmission Fluid for Type DW-1 when Type DW-1 automatic transmission fluid is required for Acura and Honda vehicles.

Always check owner's manual for proper application.

FORMULATED FOR
