Check with Beck

## Extended Life Pink

# 252-1502

Beck/Arnley Premium Extended Life Pink Antifreeze/Coolant is an ethylene glycol based, pre-diluted, Antifreeze/Coolant formulated for Asian automobile engine cooling systems that specify the use of “Extended Life Pink” antifreeze/coolant.

Premium Extended Life Pink Antifreeze/Coolant utilizes Phosphated Organic Acid Technology also known as Hybrid Organic Acid Technology (HOAT) and contains no amines, borates or silicates that may harm water pump seals and cause gel formation which may clog the radiator.

This Antifreeze/Coolant provides superior extended life corrosion and rust protection of water-cooled automobile engine cooling system components and meets ASTM D3306.

Our 50/50 prediluted formulations are ready to use. We use deionized water for purity. The deionization process removes the impurities and minerals from the water which may make the antifreeze/coolant less effective over time.

**PREDILUTED FORMULATIONS ARE READY TO USE.  
DO NOT ADD WATER.**

Always check owner’s manual for proper application.

FORMULATED FOR	OE REFERENCE NUMBER
TOYOTA	00272-SLLC2
LEXUS	00272-SLLC2
SCION	00272-SLLC2

  

UNIT SIZE	PART NUMBER
1 GAL. (3.78 LITERS)	252-1502

ATTRIBUTES	
APPEARANCE	Pink
DENSITY AT 20°C	1.07 g/cm <sup>3</sup>
FREEZING POINT	-37°C/-34°F
FLASH POINT	None
BOILING POINT	129°C/265°F
WATER CONTENT	50%
PH-VALUE	7.7

Using a 15 psi (103 kPa) pressure cap at sea level
